

Handbook Of Portable Appliance Testing

Index

Index	Description	Page	Index	Description	Page
110V			D		
	adaptors	76		damage to equipment	27
	appliance, equipment	18, 75		DC current	83
	extension leads	76		desk fan	10
	transformer	18, 75, 92		double box	8, 36, 37
3-phase				double insulation	8
	adaptors	77		drill	8,34,43
	appliances	77		duty holder	5
	extensions	78	E		
A				earth bond	39
	AC current	83		earth continuity	39
B				test current	40
	basic insulation	7, 8		test limits	41
	BattPAT	50		testing Class I	45
	building sites	15		testing class II	46
	business equipment	11		earth leakage	40
C				earth point	40
	cable			EasyPAT 1600	49, 51
		current capacity		EasyPAT 2100	49, 51
		damaged		electric blankets	93
		resistance		electric fan	37, 40, 57
		size		electric fire	7, 25,
		types		electric heater	57
		types		electric irons	32, 60
	cable joints	non-standard		electric shavers	79
		taped		electric shock	91, 92
	CE mark			electrical wiring inspection	89
	class 0			Electricity at Work	
	class 01			Regulations 1989	2
	class I			equipment register	5,6
	class I metal			equipment test record	21, 23
	class I plastic			equipment used by public	15
	class II			equipotential bonding	89
	class III			European Low Voltage Directive	2
	combined inspection and testing			extension leads	12, 70
	commercial kitchens				
	construction sites				
	contact resistance				
		current			

Index	Description	Page	Index	Description	Page
F			K		
factories		15	Kettle		9,37,40, 45,55
faulty cable grip		25,28		cordless	55
fixed equipment		13		earth point	55
flash test		47		testing	55
formal visual inspection		3, 27		travel	33
frequency of inspection and testing		19	L		
functional test		18,94	labels		21
fuses	In moulded mains plugs	31		cable wrap	22
	In rewirable mains plugs	32		Do not use	22
fuse test		48		Fail	22
G				Fuse	34
glue gun		66	lamps		59
H			load test		47
hair dryer		17, 61	M		
hand-held equipment		12	mains extension		9, 70
HandyPAT 600		49	mains socket outlets		30
Health and Safety at Work Act 1974		2	Management of Health and Safety at Work Regulations 1999		2
Health and Safety Executive		3	metal lamp		10
heating appliances		44	MicroPAT+		50, 52
hotels		15,19	microwave ovens	heating power leakage	64 63
hot air gun		66	movable equipment		11
I			N		
industrial		15	nursing homes		19
insulation resistance	test limits	43	O		
	test voltage	44	offices		15,19
insurance		1	Ohm's law		82
IT equipment		11, 67	overheating		28, 29
J			P		
K			PAT testers	downloadable	49
L				pass/Fail	41,49
M				with display	41,49
N				with display & Pass/Fail	49

Index	Description	Page	Index	Description	Page
PC		17,41	S		
	desktop	67	sandwich toaster		33
	laptop	67	schools		15,19
	monitors	68	second hand equipment		93
plugs	bent pin	28,29	separated extra low voltage (SELV)		8
	cracked	25,28	shops		15, 19
	faulty cable grip	25, 28	soldering irons		66
	Insulation on Live and Neutral	93	stationary equipment		11
	no fuse	29	surge protected appliance		44
	overheating	29	SwiftPAT		49
	wiring instruction	85			
plug-top power supply		9	T		
portable equipment		12	table lamp		10,32, 59
power		32,33,83	televisions		61
power cords		38,79	test probe		60
	2-core	79	toaster		41
	3-core	80	touch current		45
	IEC	69	Transmille 6080		50,53
power tools		65	transportable equipment		11
pressure cleaners		65			
Primetest 50		49	U		
Primetest 100		49	user checks		3
Primetest 200		49	user checks poster		26
Primetest 350		50			
Provision and Use of Work Equipment 1998		2	V		
R			vacuum cleaner		1,43,60
rating plate		9,10, 32,33, 36,37,93	voltage		81
Residual current device (RCD)		12,30, 73,91	W		
resistance		82	Watts		32, 33, 34, 83
RCD extension leads		73	wiring a plug		85
rental		18	workshops		15
repair		18,47			
run test		47
