

FirstPrint Label Printer

User Guide

Product Components

Printer App

1. **Printer App**

This printer uses the 'WePrint' app. This can be downloaded from the Google Play store or App Store.

2. **Printer Support**

At First Stop Safety, our team is available to support you with any issues you may have with your printer. Please scan the QR code below to contact us and our team will be in get back to you.

Basic Usage

1. App Install

Scan the QR codes below to download the WePrint app. Or search 'WePrint' on the Google Play or App Store.

2. Label templates

We provide two label templates. Visit www.firststopsafety.co.uk/firstprint-pat-label-printer or scan the QR code below to download our printer labels.

Basic Usage

1. Turn Printer On

Press the power button for 1.5 seconds to power on.

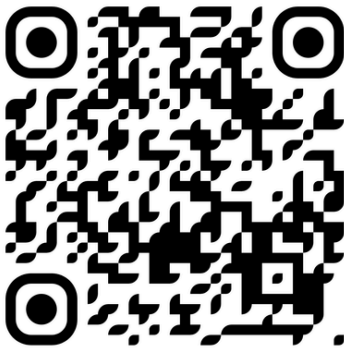

2. Auto Power Off

If the printer is in its standby state for a long period, it will power off automatically. The time can be set in the settings menu; the default value is 15 minutes.

3. Product Manual

We have a full product manual available for this product, scan the QR code below to access this:

Screen Settings

1. **Bluetooth Connection**

When the Bluetooth is connected, the Bluetooth icon will be displayed. This icon will flash when data is transmitted.

2. **Settings**

When the printer is powered up, a short press of the power button will enable you to change the device's settings. Hold the power button down again to return to the home screen.

3. **Printer Cover Open**

When the printer cover is open or not closed tightly, the screen will display the message 'paper cover is open'.

4. **Battery/Charging**

When the device is connected with a power adapter the charging icon will be displayed. When the power level of the printer is displayed, 4 bars mean the battery is fully charged. When the battery is low on charge, the icon will flash.

FAQ

Q: How do I connect the printer to the phone's Bluetooth?

For both iPhone and Android, please connect the printer via the WePrint app, not in the phone's settings.

Q: Why does my printer keep printing blank labels?

Please make sure orientation of the label is correct with the printable side face down.

Q: Does the printer support batch printing?

Yes, you can batch print labels by changing the volume of prints using the WePrint app.

Q: How can I get more labels for my printer?

Additional labels can be purchased from the First Stop Safety website:
www.firststopsafety.co.uk/shop
